EDUCATION

University of Tennessee, Knoxville Ph.D. in Economics	expected 2027
Shandong University, Jinan M.A. in Finance — thesis published in <i>Technological Forecasting and Social Change</i> (2019)	2018
Tongji University, Shanghai B.A. in Economics	2015

RESEARCH INTERESTS

International Trade, Trade Policy, Applied Econometrics, and Political Economy.

WORKING PAPERS

Measured Quality Falls Within the Firm: Market Access and Chinese Exports with James Lake [**Job Market Paper**]. [[paper](#)]

Abstract: Better access to a market is expected to make exporters upgrade. We show it does the opposite, and we locate where. Using the removal of tariff uncertainty for Chinese exporters to the United States in 2002, and comparing a firm's shipments of a product to the United States against its shipments of the same product elsewhere, we find that measured export quality falls by about 14 percent for heavily exposed products against barely exposed ones, and that 78% of that decline survives inside firm-product-arm cells that ship in both periods. The fall is not markup compression: the quantity response falls short of what the price cut implies by exactly the amount the measurement identity requires. We then show that this class of evidence cannot go further. Measured quality is a linear combination of the price and quantity it is inferred from, so a degraded product and a widened clientele imply the same three coefficients. We set out what would separate them.

A Mean-Field Game of Mayoral Endorsements: Identification and Evidence from Brazilian Coalitional Presidentialism with Matt Van Essen and Luiz Lima. *2024 J. Fred and Wilma Holly Award (best second-year paper).* [[paper](#)] [[slides](#)]

Abstract: A mayor's return from endorsing a presidential candidate falls as other mayors endorse the same one, so endorsement is a strategic discrete-choice game that has gone structurally unestimated: among Brazil's 5,570 mayors the joint action space is too large to enumerate. Anonymity collapses the problem. When payoffs depend on rivals only through aggregate shares, equilibrium is a fixed point on the candidate simplex whose dimension does not grow with the number of players, and the model estimates by least squares in milliseconds. Estimating it on Brazil's 2014 election, we then show what the exercise does not buy: the prize parameter is algebraically the average log-odds of alignment rescaled by the share of mayors classified as aligned, so it changes sign with the classification rule. What survives is reduced form. A close-race difference-in-differences design puts discretionary transfers to co-partisan mayors 10.6 percent above those of other coalition members and finds no premium on the formula-based transfer that leaves no discretion to allocate.

PEER-REVIEWED PUBLICATIONS

“Spatial optimization of the sustainable aviation fuel supply chains from forest residues via fast pyrolysis/hydrotreatment considering feedstock ash content variability.” **P. Li**, T. E. Yu, N. Labbé, N. Abdoulmoumine, M. Garcia-Perez, K. P. Hoyt, and B. C. English. *Biomass and Bioenergy*, 208 (2026), 108793.

“Assessing the impact of preprocessing and conversion technologies on the sustainable aviation fuel supply from forest residues in the Southeast USA.” **P. Li**, T. E. Yu, C. Trejo-Pech, J. A. Larson, B. C. English, and D. N. Lanning. *Transportation Research Record*, 2678(9) (2024), 639–654.

“Beef price spread relationship with processing capacity utilization.” C. Martinez, **P. Li**, C. N. Boyer, T. E. Yu, and J. G. Maples. *Journal of the Agricultural and Applied Economics Association*, 2(1) (2023), 133–145.

“Do green technology innovations contribute to carbon dioxide emission reduction? Empirical evidence from patent data.” K. Du, **P. Li**, and Z. Yan. *Technological Forecasting and Social Change*, 146 (2019), 297–303.

PRESENTATIONS

Midwest Economic Theory and International Trade Meetings, Virginia Tech	Spring 2025
University of Tennessee, Economics Brown Bag Seminar Series	Spring 2024, Fall 2024
University of Tennessee, Applied Micro Group	Spring 2024, Fall 2024
Western Regional Science Association, Annual Meeting, Hawaii	2023
Western Agricultural Economics Association, Annual Meeting, Santa Fe, NM	2022
Southern Agricultural Economics Association, Annual Meeting, New Orleans, LA	2022

TEACHING EXPERIENCE

University of Tennessee

Instructor

ECON 351: Monetary Economics	Spring 2025, Spring 2026
ECON 322: The Global Economy: Trade and Development	Summer 2025
ECON 313: Intermediate Macroeconomics	Summer 2026

Teaching Assistant

Ph.D. courses:

ECON 511: Microeconomic Theory	Fall 2023, Fall 2024, Fall 2025
ECON 512: Advanced Microeconomics	Spring 2024
ECON 581: Mathematical Methods in Economics	Summer 2024

Master's courses:

AREC 525: Agribusiness Operations Research Methods	Spring 2022, Spring 2023
--	--------------------------

PROFESSIONAL EXPERIENCE

University of Tennessee – Knoxville, TN 2021 – present
Graduate Research & Teaching Assistant. USDA NIFA and FAA ASCENT projects (2021–2023): mixed-integer supply-chain optimization (GAMS), IMPLAN/DEA siting analysis, and spatial data pipelines (ArcGIS, R, Python) for forest-residue sustainable aviation fuel; two publications and three working papers.

Shandong University – Jinan, China 2016 – 2018
Graduate Research Assistant. Panel-threshold and machine-learning analysis of green innovation and

CO₂ emissions (published in *TFSC*, 2019).

HONORS AND AWARDS

Charles B. Garrison Award for Excellence in Teaching, University of Tennessee	2026
Graduate Summer Fellowship, University of Tennessee	2025
J. Fred and Wilma Holly Award (best second-year paper), University of Tennessee	2024
J. Fred and Wilma Holly Fellowship, University of Tennessee	2023 – present
Graduate Assistantship, University of Tennessee	2021 – present
Outstanding Rainbow Volunteer, Tongji University (tutoring pupils in Shanghai)	2013 – 2015

SKILLS

Programming Languages: Stata, R, Python, SQL, GAMS, MATLAB, LaTeX, ArcGIS, IMPLAN.
Languages: Chinese (native), English (fluent).
